Vaccination has not been declared Compulsory till now, in non-municipal areas.

2 Submitted for orders with reference to Rule 2 of the Vacc. Regs

3.11.15 10/11

3 Hitherto Vaccination has been notified to be Compulsory only in municipal areas.

4 There are practical difficulties in the way of working the rules, if it is declared to be Compulsory in a bigger more extensive area than a municipal town.

5 Rule 24 of the Vaccination rules requires says that the local Authorities in areas where Vaccination is declared Compulsory may make bye-laws on certain matters. It seems to me that the framing of these bye-laws is essential for the effective Enforcement of the rules. If the Scheme is extended to non-municipal areas it will have to be decided, who the local authorities are, who are responsible for making these bye-laws, and seeing to the Satisfactory working of the Regulations and rules.

R

6 These difficulties may be

9 By the proposed introduction of the compulsory regulation the advantage most aimed at is that the people should be aware that vaccination is compulsory in the Malnad. Quite apart from the actual enforcement of the rules, the mere fact that vaccination has been declared compulsory might act as a sufficient impetus to people producing their children for vaccin

	vaccination.
	2. There is nothing in the vaccination rules to restrict the operation of the Compulsory Regulation to only Municipal areas. The extension of the system to rural area seems to me to be an experiment worth trying. The District Sanitary Officer may be the Superintendent of vaccination and a uniform set of bye-laws may be framed for use in all rural areas, the Amildars of Taluks being considered as the local authorities responsible to see to the satisfactory working of the Regulation and rules. It is not so much the working of the rules as the knowledge that the Compulsory Act has been introduced into the Malnad Tracts that is of practical importance at present.

10 The Committee appointed to examine the purity of the Vaccine lymph considered that the compulsory provision of the Vaccination Regulation may be confined, as at present, only to those areas where a Magistrate is stationed. The proposal has been approved by Govt. (vide Govt. pro. No. 92-4 dt 3.7.14) Gen 108-12-7

Submitted for orders with the D.O reply of the Sanitary Commr.

14.12.15

11 The Sanitary Commr is of opinion that the measure is worth trying, and believes that the mere knowledge that vaccination is compulsory will have a great moral effect, and induce a good many people to produce their Children for vaccination. There is much to be said in favour of this view. He has also suggested the officers who may be regarded as "Superintendents" and "local authority" for the purpose of framing the bye-laws.

12 As regards the point raised in para 10 of the rules supra, the Taluk Magistrate may be considered to be the Magistrate for reference to for his taluk

No. 23 Office of the Secretary, Central Committee,
Malnad Improvement Scheme,
Shimoga, dated 28th October 1915.

Sanitary 61-15-1

From

S.N. Appanna Iyengar, Esquire, B.A., B.L.,
Secretary, Central Committee,
Malnad Improvement Scheme, Shimoga.

To

D.M. Narasinga Rao, Esquire, B.A., B.L.,
Secretary to the Government of Mysore,
General Department, Bangalore.

Sir,

I have the honour to state that the question of making vaccination compulsory in the malnad was for the first time - publicly discussed at the First Malnad Taluk Conference held at Tirthahalli on the 8th September 1915. It was unanimously resolved thereat that the measure was very necessary to combat small-pox successfully.

2. The District Health Officer, Shimoga District in one of his communications to this office dilates upon the non-suitability of the present optional system of vaccination in localities where the havoc of small-pox is great.

3. As the malnad people are generally illiterate and fondly cling to superstitious beliefs and would rather hasten to -- appease the supposed wrath of their pet demigods and goddesses even at the time of epidemic outbreaks of small-pox, than resort to vaccination, and as there have been as many as 2579 deaths from small-pox during the year 1913 exclusively outside the municipal area of the three districts of Shimoga, Kadur and Hassan, the question of enlarging the usefulness od vaccination

Enclosure No.

S U B J E C T.

Requests that the Government be pleased to declare Vaccination compulsory in the malnad as resolved by the Central Committee, Malnad Improvement Scheme.

was rightly taken up by the Central Committee at its meeting held on the 4th instant and the following resolution was - passed thereat.

" Resolved that the Committee recognises the necessity to declare Vaccination compulsory in the Malnad".

4. The Committee is of opinion that though for obvious reasons compulsory vaccination cannot be resorted to in - many cases, yet the mere knowledge that people who oppose the measure are liable to certain penal laws will act as a deterrent to recalcitrants and promote the work of vaccination, thus diminishing the mortality under small-pox.

5. For these reasons I request the Government will be pleased to concur in the opinion of the Committee and declare vaccination compulsory in the Malnad.

I have the honor to be,

Sir,

Your most obedient servant,

Sd/ Appaiya Gowda

Secretary, Central Committee,

SAR. Malnad Improvement Scheme, Shimoga.
